

# ASSISTED STEERING SOLUTION WITH HIGH ACCURACY AT AN AFFORDABLE PRICE

The EZ-Pilot™ assisted steering system turns the steering wheel for you with an electric motor drive using GPS guidance from the CFX-750™ display and FmX® integrated display.

**EZ-PILOT™**

While the EZ-Pilot system keeps you on line, you can focus on many different tasks, such as sprayer or planter performance, improving job quality and crop yields, while reducing fatigue.

**NEW! T3 ENHANCED TERRAIN COMPENSATION TECHNOLOGY**

Immediately adjusts vehicle steering to compensate for rough terrain or slopes and hillsides.

**FAST-REACTING MOTOR**

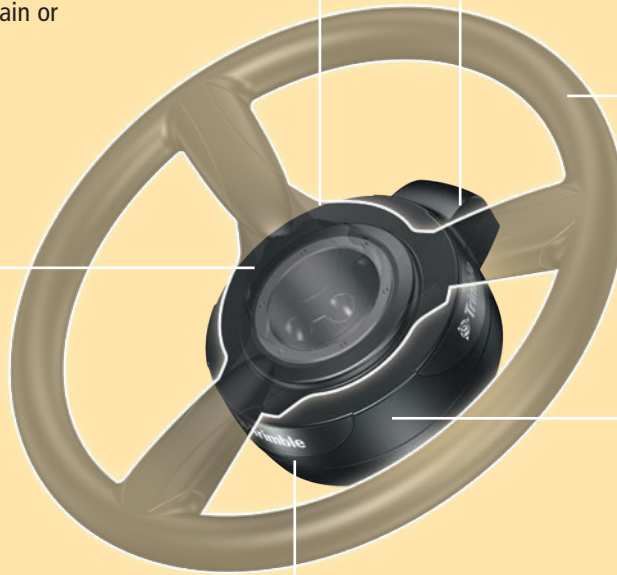

Allows system to quickly get the vehicle online and stay there.

**COMPATIBLE STEERING OPTIONS**

Steering system installation preserves the use of the vehicle's original steering wheel and telescopic functionality.

**SLEEK, CLEAN DESIGN**

Motor integrated into the steering column provides clear access to all instrument panels and no decrease in leg room in cab.

**GREATER FLEXIBILITY**

Electric steering motor allows for unrestricted manual steering when assisted steering is not engaged.

**HIGHER TORQUE**

Better steering of vehicles with more rigid power steering systems, such as floaters.

**COMPATIBLE DISPLAYS**

Trimble offers a range of display options varying in capability and price.

**CFX-750 DISPLAY**

**FmX INTEGRATED DISPLAY**

**ACCURACY OPTIONS**

Trimble Agriculture. The line everyone follows.

# ASSISTED STEERING SOLUTION WITH HIGH ACCURACY AT AN AFFORDABLE PRICE

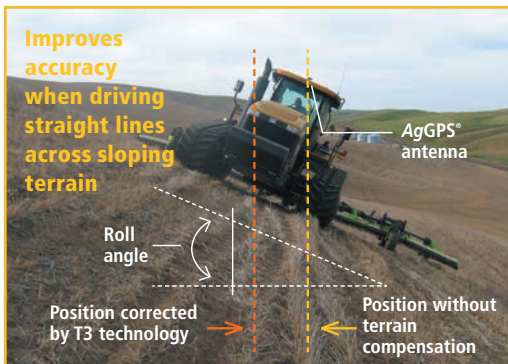

## HIGH PERFORMANCE

- ✓ Higher torque steering motor than competitive systems which allows unit to steer vehicles with rigid power steering systems, such as floaters
- ✓ Fast-reacting motor allows system to quickly get the vehicle online and stay there

## EASY INSTALLATION

- ✓ Simple cabling and **New!** IMD-600 (T3™ Enhanced Terrain Compensation) is small enough to mount anywhere in the cab
- ✓ Simple plug and play installation requires minimal tools and time to you get back to work more quickly
- ✓ Professional-looking installation

## NEW! T3 ENHANCED TERRAIN COMPENSATION TECHNOLOGY

Thanks to T3 enhanced technology built into the EZ-Pilot system steering control module, accuracy is increased when working on rolling terrain, slopes and rough ground.

This technology uses sensors to immediately calculate the actual position of the vehicle in order to minimize errant skips or overlaps and increase productivity.

## SUPPORTS A VARIETY OF VEHICLE TYPES

- ✓ Tractors
- ✓ Spreaders
- ✓ Tracked vehicles
- ✓ Combines
- ✓ Articulated tractors
- ✓ Floaters
- ✓ Self propelled sprayers
